

Project Name: _____

Applicant: _____

Coordinated Entry Compliance & Participation

River Valleys Continuum of Care (MN-502)

Instructions

All PSH, RRH, and TH/RRH projects must complete this form. Refer to the Program Entries & Referrals Report in responding to the questions A and B.

Questions

A. Program entries occur via Coordinated Entry System (CES)

To ensure projects are serving the households that most need assistance, HUD CoC-funded programs are required to fill vacancies via the local CES. If the Program Entries & Referrals report identified entries that did not follow CES policies and procedures, please explain below. (500 character limit)

B. Referral management & timeliness

CoC CES policy requires timely acceptance of referrals, contacts, and resolution (whether entering the program or not). If the Program Entries & Referrals report shows referrals with more than 45 days between referral and entry OR referrals to RRH or PSH without a Housing Move In, please explain below. (500 character limit)

C. Program contributions to effective CES

- 1. Mid-year 2022 List outreach:** Name of person/people who called assigned participants and made updates in HMIS or communicated with CES Specialist about non-HMIS updates.
- 2. PIT 2023 List Outreach:** Name of person/people who called assigned participants and made updates in HMIS or communicated with CES Specialist about non-HMIS updates.
- 3. Submittal of CE Data Quality reports:** Date(s) when CE quarterly data quality reports were submitted to the CoC. (This is not the same as your project QDQ Reports submitted to ICA.)
- 4. Case Conferencing:** Name of person/people who participated in CE Case Conferencing for their geographic area in 2022.
- 5. Coordinated Entry Committee:** Name of person/people who were members of the CE Committee in 2022.
