

Applicant: _____

Project: _____

River Valleys Continuum of Care (MN-502)

Promoting Self-Sufficiency Review

Instructions

In keeping with CoC values and HUD policies, the CoC is beginning to review how projects funded through the HUD CoC competition are supporting participants to increase self-sufficiency. In this review, projects are asked to identify specific models, procedures, and policies that affect level of service and support provided by the project and by mainstream/community resources. Provide documentation as available.

Questions

1. Describe the different levels of services and support provided within this project, considering both the types of services and frequency.

Highest Intensity	Average/Moderate Intensity	Lowest Intensity

Applicant: _____

Project: _____

2. For each of the support levels described in question 1, provide the number of households currently engaged.

Total number of participant households: _____

Highest Intensity	Average Intensity	Lowest Intensity

3. **ATTACHMENT:** Provide your program’s assessment form and procedure for ensuring regular assessments to adjust service and support levels.
4. Describe two specific steps the project uses to help participants increase both earned and non-employment income.
5. Describe two specific steps the project uses to help participants integrate into community and move on from homeless-designated housing whenever possible.
